

Stay at an Ice Lodge Igloo at Lake Shikaribetsu Ice Village – Full Enjoyment of Tokachi's Winter Wonderland!

Tokachi's distinctive landscape is formed from a terraced, step-like landform. Forests occupy two thirds of the total land area, and are the basis of its rich ecosystem. Despite the low altitude, the ecosystem around Lake Shikaribetsu (the center of the tour) is similar to that seen in alpine high mountains and the Arctic Circle.

The tour is designed with a focus on geo tourism and the enjoyment of Tokachi Winter World, observing wild birds seen during their wintering period, and riding dog sleds through the magnificent nature and wildlife of the Tokachi Plain.
